

# Pooja Kumavat — Full Stack (MERN) Developer

📍 Mumbai, Maharashtra, India | 📞 +91 8412959454 | ✉️ poojakumavat232@gmail.com  
🌐 GitHub: github.com/kumavatpooja | 🌐 Portfolio: portfolio.poojakumavat.netlify.app

## Professional Summary

Innovative Full Stack Developer with hands-on experience in MERN stack and AI integration. Proficient in developing scalable web applications and integrating AI tools like ChatGPT, Gemini, and OpenAI API for automation and smart user interactions. Passionate about building intelligent, user-focused solutions and continuously enhancing technical proficiency in modern web technologies.

## Technical Skills

- **Languages & Frameworks** : HTML5, CSS3, JavaScript, Python, PHP, Laravel, Java, Angular, React, Node.js, Express.js, Tailwind CSS
- **Key Skills** : React, Node.js, Express, MongoDB, REST APIs, Tailwind CSS, JavaScript, OpenAI, UPI Integration, Speech Recognition
- **Databases** : MongoDB, MySQL, Firebase
- **AI & Automation Tools** : ChatGPT, Gemini (Google AI), DeepSeek, Gamma, GitHub Copilot, OpenAI API, Notion AI, Hugging Face, LangChain, TensorFlow, Scikit-learn
- **Tools & Platforms** : Visual Studio Code, Android Studio, NetBeans, Anaconda
- **Version Control** : Git | OS: Windows 7/8/10

## Professional Experience

### Neweage Cloud Software Services Pvt. Ltd. — MERN Stack Developer

Pimpri-Chinchwad | Oct 2023 – Sep 2025 | Client: JIO Finance Services (Navi Mumbai)

- Developed a secure, user-friendly online banking system using MERN stack.
- Implemented modules for User Authentication, Account Management, Fund Transfers, and Customer Support.
- Built responsive UI and ensured compliance with security standards.

## Internship Experience

### Eluminous Technologies Pvt Ltd, Nashik — Intern (May 2022 – Aug 2022)

- Built a web portal using Angular and Laravel to manage student and faculty data.
- Developed features for timetable creation, class info, and notifications.

## AI Project (In Progress)

### 📁 StealthMate AI — Smart Interview Preparation Assistant (In Progress)

Tech: React, Node.js, Express, MongoDB, OpenAI API, Tailwind CSS, Web Speech API

Developing an AI-powered interview preparation platform that generates personalized, resume-based answers and practice questions to help candidates improve confidence before real interviews.

- Integrated resume parsing (PDF/DOCX/TXT) to extract candidate data like skills, job role, and tone preferences for contextual AI feedback.
- Includes speech-to-text practice mode with AI-generated improvement suggestions.
- Offers custom language and tone selection (English, Hindi, Hinglish) for bilingual learners.
- Designed a mobile-first, distraction-free interface with UPI-based subscription plans and admin control panel.

### Other Projects

- **Mood Sync** — Emotion-based media recommendation system using MERN stack and facial emotion detection (moodsyncapp.netlify.app)
- **E-commerce Website** — Online shopping platform for daily-use products (Node.js, MySQL)
- **Hair Oil Website** — Ayurvedic product site with order and review features (PHP, MySQL)
- **Audiobook App** — Converts PDF content to speech using Python
- **Kids World** — Android learning app for preschool kids (Java, Firebase)

### Strengths

Positive attitude | Quick learner | Team player | Time management | Flexibility | Problem-solving mindset | AI curiosity

### Education

**Master of Computer Application (MCA)** — Dr. Moonje Institute of Management and Computer Studies, Nashik, Pune University, 2022 | 70.89%

**Bachelor of Computer Application (BCA)** — Panchavati College of Management & Computer Science, Nashik, Pune University, 2020 | 46%

### Certifications

- **Java Full Stack** — Profound EdTech | Grade: C
